

16000 Lip striking plate for electric strikes 24 mm

Lip striking plate as center striking plate

Product profile

Lip striking plate in stainless steel as center striking plate for latch/bolt. Appropriate for electric strikes of the series GLUTZ vector electric strike A4xxx with integrated latch guide I.S.T.Kingfix. For the mortice and multipoint locks of the Glutz MINT family. The striking plate is designed for flush edged doors. Due to a radius on the lip a gently entering of the latch into the striking plate is guaranteed.

Standard version

X-Dimension Glutz (X-Mass): 15.9 mm (adjusting range 3 mm)

X-Dimension effeff (X-Mass): 16 mm (adjusting range 3 mm)

Distance: 72-94 mm

Width: 24 mm + lip 8.5 mm = 32.5 mm

Length: 210 mm

Depth: 3 mm

DIN L or R

Matt stainless steel

Options

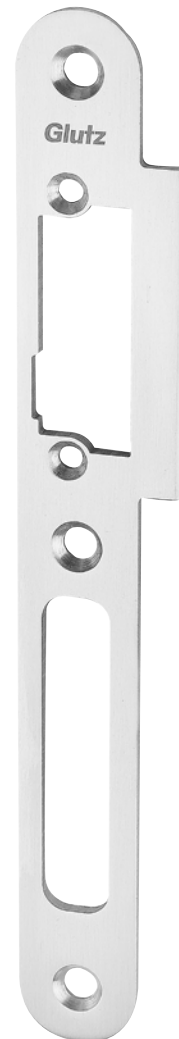

- Black plastic push-fit box for covering the bolt mortice

Important note

Alternative electric strikes: effeff electric strikes series ProFix® 2.

Fire protection: Only with corresponding effeff electric strikes series ProFix® 2.

By using an electric strike effeff ProFix® 2 series an intermediate piece effeff of 1 mm thickness in stainless steel is necessary.
