

22810 Flat striking plate 20 mm for 24100 Magnetic mortise lock

Product profile

Flat striking plate in stainless steel for the 24100 Magnetic mortise lock in combination with a wood frame. The magnetic latch holder, which is delivered with the lock, is simply mounted into the striking plate from the front and tightened using the special blind screws. The magnetic force is adjusted via the depth adjustment in the magnetic latch holder.
