

## B-1138 Lip striking plate 24 mm

Lip striking plate as center striking plate

### Product profile

Lip striking plate in stainless steel as center striking plate for latch/bolt. For the mortice and multipoint locks of the Glutz MINT family. The striking plate is designed for flush edged doors. Due to a radius on the lip a gently entering of the latch into the striking plate is guaranteed. If necessary, the rib can be grinded appropriate.
